GENERAL RULES AND REGULATIONS  
APPLYING TO ELECTRIC SERVICE (continued)

7. UTILITY'S SERVICE OBLIGATIONS

7.01 SUPPLYING ELECTRIC SERVICE:

Except as otherwise provided by Rule 8 hereof, electric service will be supplied by the Company under an available rate schedule only at such premises as are adjacent to the Company's existing distribution facilities which are adequate and suitable, as to capacity, voltage, phase and other characteristics to supply electric service for the requirements of the Customer, unless special arrangements are made between the Customer and the Company.

7.02 CLASS OF SERVICE:

Except as may be otherwise provided under an applicable and available rate schedule of the Company, all electric service will be supplied in the form of 60 cycle alternating current and at primary and secondary voltages as available and as designated by the Company. The class or classes of electric service which will be designated by the Company will depend on the location, size, type and other characteristics of the Customer's load requirements.

7.03 LINE CONSTRUCTION:

Normally all transmission and distribution lines of the Company will be of overhead construction. Underground distribution lines in an area or on the Customer's premises will be made available pursuant to Rule 8 hereof. However, the Company reserves the right to place any transmission or distribution line underground where it is more economical or convenient for the Company to do so.

7.04 DELIVERY OF ELECTRIC SERVICE TO CUSTOMER:

The Company shall supply electric service to the Customer at the Customer's point of delivery. The Customer shall provide a service entrance to be located at a suitable point on or near the Customer's premises as specified by the Company. Only authorized Company employees shall be permitted to energize the Customer's installation from the Company's facilities.

**GENERAL RULES AND REGULATIONS  
APPLYING TO ELECTRIC SERVICE (continued)**

**7. UTILITY'S SERVICE OBLIGATIONS (continued)**

**7.05 COMPANY RESPONSIBILITY:**

The obligation of the Company to supply electric service to the Customer shall be completed by the supplying of such electric service at the Customer's point of delivery for the operation of all electrical equipment on the premises of the Customer. The Company shall not be obligated to supply electric service to a Customer for a portion of the electrical requirements on the premises of the Customer, except pursuant to an applicable rate schedule therefore. The responsibility of the Company for the quality of service and the operation of its facilities ends at the point of delivery. The Company shall be required only to furnish, install and maintain one connection from its distribution facilities, service conductors from such connection to the Customer's point of delivery and one meter installation to measure such electric service to the Customer.

**7.06 CONTINUITY OF SERVICE:**

The Company will use reasonable diligence to supply continuous electric service to the Customer but does not guarantee the supply of electric service against irregularities and interruptions. Except where due to the Company's willful misconduct or gross negligence, the Company shall not be considered in default of its service agreement and shall not be liable in negligence or otherwise for any claims for loss, expense or damage (including indirect, economic, special or consequential damage) regardless of cause.

**7.07 CURTAILMENT, INTERRUPTION OR SUSPENSION OF SERVICE:**

(A) The Company shall have the right to curtail (including voltage reduction), interrupt or suspend electric service to the Customer for temporary periods as may be necessary for the inspection, maintenance, alteration, change, replacement, or repair of electric facilities, or for the preservation or restoration of its system operations or of operations on the interconnected electric systems of which the Company's system is a part.

GENERAL RULES AND REGULATIONS  
APPLYING TO ELECTRIC SERVICE (continued)

7. UTILITY'S SERVICE OBLIGATIONS (continued)

7.07 CURTAILMENT, INTERRUPTION OR SUSPENSION OF SERVICE: (continued)

(B) During any period of emergency conditions on the Company's system or on the interconnected electric systems of which the Company system is a part, the Company shall have the right of selective curtailment, interruption, suspension, or restoration of electric service, both within and without its system and as among Customers served directly from its system, through the operation of protective devices or equipment, or by other means deemed by it to be appropriate to preserve or restore the operational integrity of any portion of its generating resources and transmission facilities or those of the interconnected electric systems of which the Company's system is a part.

(C) During the continuance of any such emergency conditions and depending upon the operating characteristics of the Company's system and its interconnected electric systems, the nature of the deficiency, and to the extent of time availability, the Company's procedures for curtailment, interruption or suspension to Customers served directly from the Company's system shall generally provide that:

(1) Interruptible electric service will be suspended;

(2) Voluntary reduction of use of electric service will be requested directly by the Company of major use customers and will be requested by the Company of all customers by public appeals through the news media;

(3) Selective curtailment, interruption or suspension of service will be made by the Company either manually or through the automatic operation of protective devices or equipment pursuant to load shedding programs coordinated by the Company with other regional interconnected electric systems; and

GENERAL RULES AND REGULATIONS APPLYING TO ELECTRIC SERVICE (continued)

7. UTILITY'S SERVICE OBLIGATIONS (continued)

7.07 CURTAILMENT, INTERRUPTION OR SUSPENSION OF SERVICE: (continued)

(4) News media will, insofar as practicable, be kept informed of the Company's progress in the restoration of electric service during the period of such emergency conditions.

(D) The Company, in its sole judgment, may effect any additional or alternative procedures during the period of such emergency conditions as it deems necessary or more appropriate in the preservation or restoration of electric service on its system and the interconnected systems of which the Company's system is a part; provided that, if such emergency conditions would prevail on the Company's system or its interconnected systems for substantially more than two hours, then, to the extent that the Company's system resources and facilities are available to serve a portion but not all of the less critical categories of its system electric loads under such coordinated plans, the Company will manually rotate service among such less critical categories of loads served directly from its system so as to limit the continuous period of interruption to such loads.

(E) Upon restoration of the operational integrity of the interconnected electric systems of which the Company's system is a part, the re-energizing of the Company's system or those parts upon which service has been curtailed, interrupted or suspended will proceed as rapidly as practicable, dependent upon the availability of generation and/or the stability of the interconnected electric systems.

7.08 RESTORATION OF SERVICE:

In all cases of interruption or suspension of service, the Company will make reasonable efforts to restore service without unnecessary delay. Labor disturbances affecting the Company or involving employees of the Company may be resolved by the Company at its sole discretion.

GENERAL RULES AND REGULATIONS  
APPLYING TO ELECTRIC SERVICE (continued)

7. UTILITY'S SERVICE OBLIGATIONS (continued)

7.09 APPLICATION OF RATE SCHEDULE:

Neither interruption nor suspension of electric service by the Company shall relieve the Customer from charges provided for in the Customer's service agreement.

7.10 REFUSAL TO SERVE:

The Company may refuse to supply electric service to any Customer who fails or refuses to comply with any provisions of any applicable law, general order of the Commission or rate schedule, rule or regulation of the Company in effect and on file with the Commission.

7.11 PROPERTY OF THE COMPANY:

All facilities furnished and installed by the Company on the premises of the Customer for the supply of electric service to the Customer shall be and remain the exclusive property of the Company. All facilities on the premises of the Customer which are or become the property of the Company shall be operated and maintained by and at the expense of the Company, may be replaced by the Company at any time, and may be removed by the Company upon termination of the Customer's service agreement or upon discontinuance by the Company of electric service to the Customer for any reason.

7.12 LIABILITY OF COMPANY:

Except where due to the Company's willful misconduct or gross negligence, the Company shall not be liable in negligence or otherwise for any claims for loss, expense or damage (including indirect, economic, special or consequential damage) on account of fluctuations, interruption in, or curtailment of electric service; or for any delivery delay, breakdown; or failure of or damage to facilities; or any electric disturbance originating on or transmitted through electric systems with which the Company's system is interconnected, act of God, or public enemy, strike, or other labor disturbance involving the Company or the Customer, civil, military or governmental authority.
