GENERAL RULES AND REGULATIONS
APPLYING TO ELECTRIC SERVICE (continued)

9. METERING

9.01 METER INSTALLATION:

The Company shall furnish and install, without expense to the Customer, its meter installation at a suitable place as determined by the Company. The Customer shall provide and at all times maintain at the place specified by the Company, space for the installation of the Company's meter installation. The Customer shall provide the necessary meter mounting facilities (including the meter socket beginning January 1, 1988) in a manner satisfactory to the Company and in full compliance with the provisions of the National Electrical Code and all laws and governmental regulations applicable to the same. The Company shall supply the meter socket for those installations that require a Current Transformer rated meter socket. After the meter installation has been located on the premises of the Customer, the cost of any subsequent change in the location thereof shall, if required by the Company, be paid by the Customer if the relocation is made at the request of the Customer.

9.02 MULTIPLE METERING:

When more than one meter installation is used to measure the electric service supplied by the Company to a Customer, a separate bill in accordance with the applicable rate schedule will be rendered for the electric service supplied through each meter installation. The Company may combine consumption of electric service registered, and render a single bill, for the same class of electric service supplied to a Customer at his premises through two or more meter installations if, at the option of the Company, such multiple metering is installed as a convenience to the Company or because it is more economical for the Company to do so.

GENERAL RULES AND REGULATIONS
APPLYING TO ELECTRIC SERVICE (continued)

9. METERING (continued)

9.03 MULTIPLE-OCCUPANCY BUILDINGS:

(A) INDIVIDUAL METERING OF SEPARATE PREMISES: When a building is occupied by more than one Customer, the Company will set as many meters as there are separate Customers within the building, and will furnish electric service conductors to the building sufficient to supply the requirements of all Customers within the building. The internal building wiring and meter board shall be so arranged as to permit individual metering of each separate premises and the installation of the Company's meters immediately adjacent to each other. The application of residential rate schedules using multiple turning points in bill calculations of single-metered multiple-occupancy premises will not be available to Customers applying for electric service or to Customers presently receiving service under a non-residential rate schedule after the effective date of this Rule 9.03.

(B) PUBLIC SERVICE METERING FOR LESSOR: All public service use in or on any multiple occupancy premises, where each separate premises therein is individually metered by the Company, will be separately metered and billed under an applicable non-residential rate schedule. Such public service use may include the electric requirements of all common areas and equipment in or on such multiple occupancy premises and the electric requirements of any separate premises therein occupied by the lessor or manager. Where, in any building used for residential purposes, the public service use consists solely of incidental hall or entrance way lighting, such public service use may for billing purposes be combined with the residential use of any separate premises therein so designated by the lessor.

9.04 RESALE AND REDISTRIBUTION:

Except as provided in Rules 9.06 and 9.07 hereof, the Company will not supply electric service to a Customer for resale or redistribution by the Customer.

GENERAL RULES AND REGULATIONS
APPLYING TO ELECTRIC SERVICE (continued)

9. METERING (continued)

9.04 RESALE AND REDISTRIBUTION: (continued)

(A) "Resale" shall mean the furnishing of electric service by a Customer to another person under any arrangement whereby the Customer makes a specific or separate charge for the electric service so furnished, either in whole or in part, and whether the amount of such charge is determined by submetering, estimating or rebilling as an additional, flat, or excess charge, or otherwise.

(B) "Redistribution" shall mean the furnishing of electric service by the Customer (i) to another building occupied by the Customer and located on the same premises of the Customer but used by the Customer for a separate business enterprise, or (ii) to separate premises occupied by another person, whether or not such premises are owned, leased or controlled by the Customer, without making a specific or separate charge for the electric service so furnished. With respect to any multiple-occupancy premises, the Company will not supply electric service to the owner, lessor, lessee or operator thereof, as the Customer of the Company, and permit redistribution by such Customer to his office or residential tenants therein, except for those premises being supplied such service on the effective date of this schedule. The restriction against "redistribution" may be waived by the Company where the operation of certain types of multiple occupancy premises, either in whole or in part, makes it impractical for the Company, in its sole discretion and judgment, to separately meter and supply electric service to each occupant as a Customer of the Company. Such exceptions may include:

(1) An operation catering predominantly to transients, such as hotels, motels, and hospitals;

(2) An operation where the individual dwelling quarters are not equipped with kitchen and bathroom facilities, such as recognized rooming houses, dormitories, old folks' homes, orphanages and eleemosynary institutions;

GENERAL RULES AND REGULATIONS
APPLYING TO ELECTRIC SERVICE (continued)

9. METERING (continued)

9.04 RESALE AND REDISTRIBUTION: (continued)

(3) An operation of a building used essentially for general office or commercial purposes where the separate premises leased to office or commercial tenants are adjustable and subject to rearrangement or relocation to conform to the needs of the tenants and the Company deems it would be impractical to rearrange wiring to conform to any such changes;

(4) An operation of a transient mobile home court (see Rule 10.01) where electric service is supplied by the Company to the operator, as the Customer of the Company, pursuant to an applicable rule or rate schedule of the Company.

(C) In cases where redistribution is permitted under this Rule 9.04, the Company will supply electric service to the owner, lessor, lessee, or operator of such multiple occupancy premises, as the Customer of the Company, under an applicable rate schedule and the Customer may, by redistribution, furnish electric service to his tenants in or on such multiple occupancy premises on a rent inclusion basis; i.e., as an incident of the tenancy and without a specific or separate charge for the electric service so furnished by the Customer to his tenant, or a variable rental on account thereof.

9.05 RENT INCLUSION BY LESSOR:

Any lessor of a multiple occupancy premises may, by prior arrangement with the Company, elect to receive, and pay to the Company, the electric service bills of his tenants in such premises whose separate premises therein are individually metered and supplied electric service by the Company, provided that each such tenancy includes electric service on a rent inclusion basis. Under such an arrangement the Company may consider the lessor as the Customer for billing and collection purposes but shall individually meter the separate premises of each such tenant.

GENERAL RULES AND REGULATIONS
APPLYING TO ELECTRIC SERVICE (continued)

9. METERING (continued)

9.06 PRESENT RESALE PRACTICES:

In those few instances where on January 10, 1966, a Customer was engaged, as the lessor of multiple occupancy premises, in the resale of electric service to his tenants therein, such practice as established by the Customer and in effect on January 10, 1966, shall be permitted to continue; provided that,

(A) If such electric service to the Customer is terminated at any time for any reason, the Customer, upon reconnection, or any new Customer at such multiple occupancy premises, shall thereafter charge each tenant therein no more for resale electric service than such tenant would be charged by the Company for such electric service if individually metered and supplied by the Company to such tenant's separate premises; and

(B) The right to resell electric service, as provided for herein, shall cease with respect to any such multiple occupancy premises if the improvements thereon are substantially destroyed by any means whatsoever.

9.07 PRESENT REDISTRIBUTION PRACTICE:

In those few instances where on January 10, 1966, a Customer was engaged as the lessor of multiple occupancy premises, in the redistribution of electric service to his tenants therein, such practice as established by the Customer and in effect on January 10, 1966, shall be permitted to continue, provided that such redistribution is continued on a rent inclusion basis.

9.08 RENOVATION:

Where an apartment building presently receiving electric service for redistribution undergoes renovation to the extent that the cost of such renovation is fifty percent or more of the value of the building, then the building shall no longer be eligible for redistribution.

9. METERING (continued)

9.09 WHOLESALE SALES:

Nothing in this Rule 9 shall apply to electric service supplied by the Company at wholesale for resale under the provisions of a separate written agreement by the Company with any electric public utility, rural electric cooperative or political subdivision supplying electric service at retail to the public.

9.10 METER READING:

The Company uses the plan of continuous cycle meter reading in its service territory which is divided into meter reading districts. Except as otherwise provided herein or in applicable rate schedules of the Company, each meter in each such district shall be read in a range of no less than 26 days and no more than 36 days for monthly billing. The Company may vary its meter reads from this period to take into account the effects of connections, disconnections and for customers directly affected by rerouting. The Company reserves the right to redesignate meter reading districts.

9.11 METER SEALS:

Seals will be placed by the Company on all meters and meter enclosures. Such seals shall not be broken or disturbed by any person other than persons authorized by the Company or by law.

9.12 ESTIMATED BILLING DUE TO UNREAD METERS:

(A) If, due to circumstances or conditions beyond the control of the Company or if it is otherwise impractical for the Company to read the meter on a scheduled meter reading day, the Company may, at its discretion, mail or deliver to the premises of the Customer a business reply card with instructions thereon as to how the Customer shall read the meter and mail the information to the Company. If no meter reading is obtained in time for billing as scheduled, then the Company may render an "estimated bill" based on usage as estimated by the Company. However, the Company may render a bill based on an estimated meter-reading only if the estimating procedures employed by the Company and any substantial changes in those procedures have been approved by the Commission and the bill is rendered:

GENERAL RULES AND REGULATIONS APPLYING TO ELECTRIC SERVICE (continued)

9. METERING (continued)

9.12 ESTIMATED BILLING DUE TO UNREAD METERS: (continued)

(1) To seasonal Customers, provided an appropriate tariff is on file with the Commission and an actual meter reading is obtained before each change in the seasonal cycle;

(2) When extreme weather conditions, emergencies, work stoppages or other circumstances beyond the Company's control prevent actual meter readings;

(3) When the Company is unable to reasonably obtain access to the Customer's premises for the purpose of reading the meter and the Customer fails to furnish a meter reading on the pre-addressed form supplied by the Company, the Company may render an estimated bill as necessary. Such customer's meters will be read at least once a year by the Company and an adjustment shall be made in accordance with Rule 4.02(B). The Company may charge the Customer a meter reading charge as provided in Company Rule 4.06(B);

(4) Notwithstanding Rule 9.12(A)(1-3), the Company may also render a bill based on estimated usage as a Customer's final or initial bill only when:

- (a) The Customer so requests and any necessary adjustments are made to the bill upon a subsequent actual meter reading by the Company;
(b) An actual meter reading would not show actual Customer usage but is used in estimating usage; or
(c) An actual meter reading cannot be taken because of a broken meter or other equipment failure.

9. METERING (continued)

9.12 ESTIMATED BILLING DUE TO UNREAD METERS: (continued)

The Company may not, however, render a bill based on estimated meter reading for more than three (3) consecutive billing periods or six (6) months, whichever is less. Before rendering an estimated meter reading bill under Rule 9.12(A), the Company may request the Customer to provide a meter reading upon preaddressed forms.

(B) When the Company renders an "estimated meter reading bill" in accordance with this Rule, it shall:

- (1) Maintain accurate records of the reasons therefor and efforts made to secure an actual reading;
(2) Not permit field estimates of usage. Meter readers having specific knowledge of a customer's circumstances should relay that information to the billing department whose responsibility is to calculate estimates according to established guidelines;
(3) Clearly disclose on the bill that it is based on estimated meter reading. The entire word "Estimated" shall be shown on the bill;
(4) Make any appropriate adjustment upon subsequent reading of the meter.
(5) Not render an estimated monthly bill more than a total of six times per year;
(6) Maintain estimated bill records for at least 36 months and in the same manner as all other customer billing history.

9. METERING (continued)

9.12 ESTIMATED BILLING DUE TO UNREAD METERS: (continued)

(C) The Company may also render a bill based on estimated meter reading when the Customer is paying under an average payment plan under which payments are based on an estimated or projected average usage if:

- (1) The plan has been approved by the Commission;
- (2) Actual meter readings are made, except as provided in (A) above; and
- (3) The disclosures required under the average payment plan are made.

9.13 ACCURACY AND TESTS:

The accuracy and testing of the Company's meters shall be in accordance with the general orders of the Commission applying thereto.

9.14 EVIDENCE OF CONSUMPTION:

The registration of the Company's meters will be accepted and received at all times and places as prima facie evidence of the amount of power and energy taken by the Customer.

9.15 BILLING ADJUSTMENTS:

(A) Where, upon test, the average kilowatt-hour meter error is found to be 2% or less, no billing adjustment will be made therefor.

(B) Except as provided in (C), (D) and (E) of this Rule, where, upon test, the average kilowatt-hour meter error is found to be in excess of 2%, a billing adjustment therefor will be made to compensate the Customer for a "fast" meter and to compensate the Company for a "slow" meter; provided that any such billing adjustment will be applicable retroactively only to the beginning of the billing period immediately preceding the billing period in which the test is made.

9. METERING (continued)

9.15 BILLING ADJUSTMENTS: (continued)

(C) Where an average kilowatt-hour meter error is in excess of 10% or a non-registering kilowatt-hour meter is found, the Company will determine from all related and available information the facts and probable period during which such condition existed and make billing adjustments for the period involved, provided that no such billing adjustment therefor will be made applicable for service under any Residential rate schedule prior to the beginning of the twelfth billing period in which such condition is found to have existed. For service under any other rate schedule, the Company will make billing adjustments for the entire period during which such particular condition existed

(D) Any bill based upon defective demand metering due to improper meter connections, the application of improper demand meter constants, or similar reasons, shall be subject to adjustment for the entire period during which such particular condition existed.

(E) No billing adjustment will be made where the full amount of the adjustment is less than \$1.00.

(F) When evidence of tampering is found, the Company reserves the right to calculate the billing adjustment period in accordance with the applicable statute of limitations for the prosecution of such claim after determining from all related and available information the probable period during which such condition existed.

(G) Proration of Customer charges shall only be done in the following situations:

- i.) Connection or disconnection of service which causes the billing cycle to be outside the range of 26 through 36 days;
