AIR CONDITIONER LOAD CONTROL RIDER
Schedule ACLC

AVAILABILITY:

This Rider shall be available to all single-family residential electric customers requesting service under this Rider. This Rider is not available in conjunction with the RTOD rate schedule or any other riders which may be offered by the Company.

APPLICABILITY:

Upon election by the customer and acceptance by the Company, the provisions of this Rider are applicable to residential customers agreeing to the installation of a temperature activated cycling device (load controller) on their central air conditioner or heat pump used for air conditioning (cooling unit). Such load control device(s) shall be installed and maintained by the Company at no direct cost to the customer. The Company shall make reasonable efforts to install the requested load control devices on a timely basis. However, the Company is not required to take any extraordinary measures outside of its normal and customary practices and procedures to install the requested load control devices.

SPECIAL CONDITIONS:

The following conditions apply to customers participating in this program.

1. The customer shall have installed a cooling unit(s) with an electrically driven compressor rated at 2 kVA or more, in good operating condition, as determined by the Company or its authorized agents, and in regular use during the Summer Season. The Company reserves the right to exclude any or all of a customer's cooling units from this Rider if in its judgment or the judgment of an authorized agent the unit(s) are not in good operating condition.
2. Either the Company, or its authorized agents, shall be permitted access to the customer's premises at all reasonable times to install, inspect, test, maintain, repair or remove the load control device(s) and related equipment connected to the cooling unit compressor. The facilities furnished by the Company shall remain the property of the Company.
3. The Company shall be permitted without notice or restraint to commence interruption of electric service to the cooling unit compressor during periods when the ambient temperature is 95° F and above. The load control device will interrupt electric service to the cooling unit compressor for approximately seven and one-half (7½) minutes for each 30-minute period until the ambient temperature falls to 88° F.

AIR CONDITIONER LOAD CONTROL RIDER

Schedule ACLC

(continued)

SPECIAL CONDITIONS: (continued)

- 4. The customer shall be responsible for the maintenance and repair of the cooling unit system.
- 5. Any alteration of or interference with the Company's control device(s) or other required facilities by other than the Company's authorized agents shall be considered tampering. If there is evidence of tampering, the customer shall reimburse the Company for the cost of all repairs, replacement and removal of its control device(s) and other required facilities. In such cases, the Company may, at its option and without notice, remove the control device(s) and other facilities.
- 6. In the event the customer is not the owner of the building and/or the cooling unit(s), the customer shall furnish the Company written consent of the owner of said unit(s) for the installation of the control device(s) prior to installation.
- 7. The customer shall promptly notify the Company of the removal, replacement and/or damage to the cooling unit(s) or the control device(s).
- 8. The customer shall have the right to terminate service under this Rider and to request removal of the load control device(s) at any time by notifying the Company to discontinue service. The Company shall take action to remove the control device from the customer's property within a reasonable period of time. In such instances, the load control device(s) will be removed at no cost to the customer and the provisions of this Rider will cease upon such removal and the customer will be ineligible for this Rider until the next Summer Season or such other time as the Company approves eligibility with respect to that customer. Additionally, if the customer requests reinstatement in the program, and the control device(s) has been removed from the customer's property, the customer shall pay the Company the reasonable cost of reinstalling the control device(s). An estimate of such reinstallation cost shall be made available to the customer upon request.
