

## **Economic Development Rider Criteria (KCP&L - Kansas)**

### **Purpose:**

Encourage and stimulate industrial and commercial business in Kansas.

### **Incentive Value:**

The EDR provides a discount over five (5) years equating to one free year's worth of electricity. 30% discount year 1, 25% year 2, 20% year 3, 15% year 4 and 10% year 5

### **Eligibility Criteria:**

1. The EDR is available only in conjunction with local, regional and state economic development activities where an incentive has been offered and accepted by the customer to locate new or expand existing facilities in KCP&L's Kansas service area.
  - a. A new facility is defined as a customer's facility that has not received electric service in KCP&L Kansas or KCP&L Missouri tariff areas within the last twelve (12) months.
  - b. If the project is an expansion of existing facilities only the new/incremental electric load is eligible to receive the EDR.
2. The annual load factor for the new or additional facility is reasonably projected to equal or exceed KCP&L's annual system load factor within two (2) years of receiving the EDR. Historically, KCP&L's annual system load factor is approximately 50 percent. If the load factor criterion is not met, KCP&L may consider, but not be limited to, the following factors expected within two (2) years of receiving the EDR when determining qualification:
  - a. Number of new permanent full-time jobs created or the percentage increase in existing permanent full-time jobs;
  - b. Capital investment;
  - c. Additional off-peak usage;
  - d. Curtailable/interruptible load;
  - e. New industry or technology;
  - f. Competition with existing industrial customers.
3. The new or additional facility must utilize or increase its load by a minimum of 200 KW within two (2) years of receiving the EDR.
4. New/expanded load must be separately metered.
5. Applicable base rates: SGS, MGS, LGS, LPS, SGA, MGA or LGA
6. No retail activity (selling direct to the public)
7. EDR is not available in conjunction with any other special contract arrangements with KCP&L.
8. A completed EDR application must be returned to KCP&L prior to a project announcement.

An initial starting date for the EDR needs to be stated on the application. However, the customer has twelve (12) months from the time electric payments are made to formalize a starting date for the EDR. This provides the customer time to fully establish their operations prior to the EDR taking effect.

### **Return completed applications to:**
