

Reduce the cost of energy-efficient upgrades with KCP&L

A wide range of rebates are currently available to KCP&L's Missouri business customers

KCP&L offers a wide range of rebates designed to help our Missouri business customers achieve energy savings by reducing the upfront cost of installations. Not only do you save money by receiving a rebate, you save every day after by reducing the amount of energy your company uses. The Business Energy Savings program offers commercial and industrial customers in the Missouri service territory two great ways to save when upgrading to energy-efficient equipment.

Standard Rebates

KCP&L Standard Program provides rebates for energy-efficient equipment upgrades on a one-for-one basis, making it quick and easy to save money and energy.

Simply apply after equipment purchase and installation to receive a fast rebate check. Many categories of energy efficiency upgrades are eligible for Standard Rebates, including:

Lighting

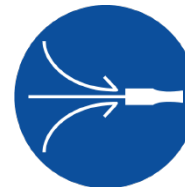

Lighting Controls

Refrigeration

HVAC

Compressed Air

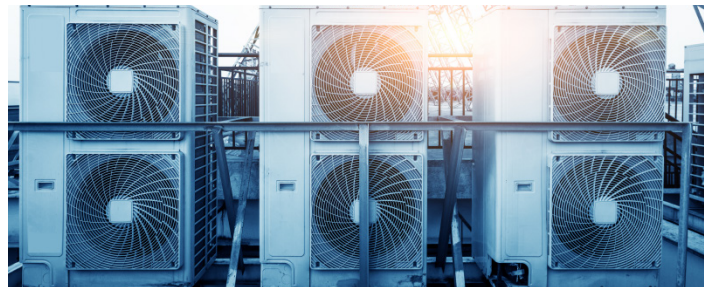

Water Heating & Cooking

A full list of eligible energy-efficient upgrades is available at KCPL.com.

Custom Rebates

KCP&L Custom Rebates are paid based on the amount of your project's energy savings and provide solutions tailored to your business. Pre-approval is required, so apply before purchasing or installing equipment in order to receive a rebate. Energy efficiency upgrades eligible for Custom Rebates include:

Rebate Category	Rebate	Common Upgrades
Building Shell	24.5¢ / kWh Saved	Insulation above Code, Windows
Compressed Air	7¢ / kWh Saved	Compressed Air Optimization or Upgrades
Cooking	11¢ / kWh Saved	Kitchen Demand Ventilation Controls
Cooling & Optimization	9.5¢ / kWh Saved	DDC Energy Management Systems (EMS) and HVAC Controls, Chiller Plant Optimization
Cooling & Optimization without Peak Demand Impact	4¢ / kWh Saved	Economizers, Programmable Thermostats, Setback
Exterior Lighting with Peak Demand Impact	7¢ / kWh Saved	Exterior Lighting Measures with Peak Demand Impact
Exterior Lighting without Peak Demand Impact	4¢ / kWh Saved	Exterior Lighting Measures without Peak Demand Impact
Electric Heating	4¢ / kWh Saved	Heat Pump Heating, Heat Recovery Units for Heating, Boiler, Furnace
Interior Lighting	10¢ / kWh Saved	Interior Lighting Equipment
Interior Lighting Controls	27¢ / kWh Saved	Interior Lighting Controls
Miscellaneous	7.5¢ / kWh Saved	High Frequency Chargers, Computer Power Management Software, Advanced Power Strips
Motors & Drives	10¢ / kWh Saved	Variable Speed Drives for Pumps or Fans, Motor Drives, High Efficiency Motors
Process Optimization	10¢ / kWh Saved	Injection Molding Machines, Use of Mechanical Agitators instead of Blowers
Refrigeration	4.3¢ / kWh Saved	Refrigeration Measures
Unitary Air Conditioning	37¢ / kWh Saved	Split System Central A/Cs, Rooftop Units, Chiller Replacement
Water Heating	10¢ / kWh Saved	Electric Water Heating Upgrades

GET STARTED SAVING

Even if you don't see your upgrade on the list above? If it saves energy, chances are it will qualify for a custom rebate. Contact your preferred contractor, Trade Ally or business development representative below, call (866) 847-5228 or email businessrebates@kcpl.com for more information on all available rebates.
